Mendeley: Reference manager meets social networking

PSU Spotlight on Faculty Using Technology
Plymouth State University, March 2011

Dana C. Ernst, Plymouth State University

Abstract: Mendeley is a free cross-platform application that allows scholars to manage, annotate, and share their research collections. With Mendeley you can create a bibliographic database, read, search, annotate, and highlight PDFs, synchronize database across multiple machines and share it with colleagues, quickly cite papers in Word, OpenOffice, and LaTeX and create bibliographies with one click.
